To Our Customers and Guests,

Welcome to Ozark Travel Park. We work hard to maintain clean, pleasant facilities. When we purchased the Park in 1985, we also inherited the earth's supply of wee, tiny ants. They love everything about our Park...most of all the accommodations! It appears they had possession of the land before we did! We hear from other parks that they have similar concerns. We have attempted to thwart them at every level. We periodically spray, but on occasion, they have been known to make a sneak attack! For your comfort, we suggest you use a pesticide spray at each of your contact points...ANYTHING that touches the ground.

Thank you for staying with us. We hope your visit is an enjoyable one!
Richard and Carol Dickson
